## About 121TechTraining

We are a professional IT company for last 20+ Years in south Delhi at Lajpat Nagar. We have been mentoring freshers and students alike at our development cum training center for past several years. Many of trained students from our institute are placed in leading organisations.

At our computer training facility, we are interested to train individuals who are serious towards their carrier goals and wish to have a course with industry exposure, practical training. Professionals who wish to shift to IT industry or want to upgrade their IT skills are welcome. Students who have technical background and are looking for practical, live industry oriented IT training classes can join us.

### Gulshan Kumar

Best Professional level training centre for digital marketing, clean and clear discuss with student, this institute offered personallised training.

### Manish

Training though 121techtraining is great experrience and 90% practical approach. This is a right place to learn from highly experienced professionals.

### Saquib Raza

Such an awesome privilege to be a part of this institute. The encouragement and growth that I get from learning in this environment is awesome. Such gratitude, thank you

### GN Jha

I was looking desperately for genuine practical training after my BTECH. At 121techtraining I got to learn practically from working professionals.
